Don't Forget Ladies Aid Bazaar and Tea Saturday Afternoon

REV. T. A. WOODS

Mr. Woods who is from Ottawa, Ont. will conduct evangelistic services at the United Church from Nov. 3 to 15th

EVANGELISTIC SERVICES BEGIN NOVEMBER 3rd

Special services lasting for two weeks will begin on November 3rd in the United Church. The Rev. T. A. Woods, assisted by Mr. W. Kerns, a baritone soloist, will lead in this evangelistic effort. Mr. Woods is on the staff of the Board of Evangelism and Social Service of the United Church. He has had wide experience in this work for he held a similar position previous to Union in the Presbyterian Church. He is an indefatigable worker and a speaker of great ability. He has a most helpful and inspiring message that no one can afford to miss.

Mr. W. Kerns, the leader of song, has had a wide experience in this type of work. His work in the song services is being greatly appreciated, but as a soloist he is especially successful. His gospel songs are asked for again and again.

On Sunday, Mr. Woods will visit the country appointments as well as conduct the evening service at Irma. Throughout the two weeks, excepting Saturday, there will be services which commence at 8 p.m., preceded by a Song Service at 7.45 p.m. The public are cordially invited to all these services, and are urged to lay aside their usual week-evening activities so as to have the fullest possible share in the inspiration of these meetings.

LADIES AID BAZAAR

The Irma Ladies Aid will hold their annual bazaar in the Irma United Church, Saturday afternoon, Nov. 2. Don't forget this annual affair.

The next W. A. meeting will be held on November 12th at the home of Mrs. H. Higginson. Every lady welcome.

Nov. 7th, 8th and 9th

LOCAL EVENTS JARROW DISTRICT

Quite a number from here attended the chicken supper and concert at Kinsella on Monday evening. Everyone enjoyed the concert and were perfectly satisfied with the supper too, inwardly at least.

The "500" drive put on by the Community Club on Tuesday night was not so well attended as we would have liked, but a good evening was spent. The prizes went to Mr. and Mrs. Luxton, Mrs. Ramsey and Ed. Hogue. The Ladies Aid met at the manse on Wednesday afternoon with an extra good attendance. Plans were completed for the Chicken Dinner, Concert and Sale of Work to be held on Friday, November 8th. Dinner will be served from 6 to 8 and an excellent program is being prepared after which the fancy work and comforts will be sold. We hope everyone plans to come to this affair. Come hungry and prepared to enjoy a good program and also prepared to do your Christmas buying.

Mrs. Benton and Mrs. Peterson, sisters of Mrs. George Matthews with Mr. and Miss Peterson from North Dakota, have been visiting for the last week with Mr. and Mrs. Matthews. They left on Monday by motor for the return trip. Mr. and Mrs. McNeill and Mr. J. M. Moore left for Edmonton yesterday where they will attend the Laymen's convention being held in McDougall church there.

Mr. Pete Lindquist who is working in Viking, spent the week end at his home here.

Mr. E. Williams is visiting with her parents in Wainwright this week. Mr. J. D. Manners is quite ill at the home of Mrs. Marshall. We hope for a speedy recovery.

Mr. and Mrs. E. Z. Nicholls and family who moved from here about two months ago, were now residing in Minburn, were visitors in town on Sunday.

The Community Club will hold a Novelty Dance on November 15th. The Loughheed orchestra will furnish music and a gay time is being planned.

MR. M. LUCHKOVITCH, M.P.

**SPEAKS IN ROSEGARLAND
SCHOOL HOUSE**

(From The Viking News)

Under the auspices of the Birch Lake U.F.A. Local, Mr. M. Luchkovitch, member of parliament for the Vegreville Constituency addressed a full school house on Saturday evening.

The member is an excellent speaker, and before entering upon the main features of his address, he spent some time explaining to the younger members of the audience the difference between Parliament and Government, and the present general formation of the Federal House. Then he dealt at some length with the general activities of the House during the past term, touching on the Speech from the Throne, the Debate, the Government Bills, Private Bills, and Custom Problems in connection with Liquor Exports. He said that, in his opinion, the chief accomplishments of last term included amendments to the Grain Act — making it possible for a farmer to decide which terminal his grain would be shipped to, and amendments to the Election Act by which Polling Officers in future will be appointed by a special election officer in Ottawa irrespective of political party relationships.

Considerable discussion followed the address, in which it transpired that the member can give no information relative to the commencement of the proposed new railway which will run north-west from Sedgewick through this district. Moreover we learned that the Member is distinctly a "Free Trader", and gives his support to Miss Agnes McPhail in her anti-military campaign — especially against the Cadet movement.

A resolution of appreciation was presented to the speaker by the Chairman — Mr. C. Place, and the Member replied thanking his constituency for their continued support and confidence. The ladies of the Birch Lake U.F.A. Local served refreshments.

NEWS ITEMS FROM KINSELLA

Mr. William Eaton of Lynn, Ontario arrived Friday morning on the Confederation and is visiting his son R. L. Eaton.

Messrs. E. C. Williams and Robert Cormack motored to Edmonton last Tuesday and returned on Thursday evening. Mr. Kerns of Edmonton returned with them and is visiting Mr. and Mrs. R. Cormack.

Messrs. John Zelinski and Arthur Landon motored to Edmonton on Tuesday.

Mr. Marshall Hall who has been looking after the station here for the past month, left on Monday. B. Crossware is taking his place and Mr. Hall has gone to Maidstone, Sask.

Mr. J. Neale spent Sunday at Vermilion.

Miss Irene Ross of Viking spent the week end with her Aunt Mrs. P. J. Wanger.

Rev. J. Bainbridge of Viking occupied the pulpit here on Sunday morning and delivered a splendid sermon.

Mrs. J. Ansell returned on Thursday from Edmonton where she had been for the past few days.

Miss Maxine Wachter is attending school in Edmonton.

SEPTEMBER, OCTOBER REPORT IRMA HIGH SCHOOL

The following is the report of standing of students of the Irma High for the months of September and October. The first figure after a student's name indicates the number of units on which he was tested; the second figure, the number of units on which he obtained 75 per cent, and the third the number of failures, that is, the number of units on which his standing was less than 50 per cent. The letters A. H. denote an average high standing.

Grade XI — Eleanor Barber, A.H.; Beulah Blade (8, 1, 2); Mary Landers (6, 1, 0); Marjorie Locke A.H.; Helen McDowell (8, 2, 2); Bernice Mathison A.H.; Ethel Milburn (7, 3, 0); Harriet Nash (5, 0, 1); Bertie Sellstedt (5, 0, 2); Violet Simmons (5, 2, 1); Phyllis Thurston A.H.; Margaret Rae (4, 2, 0); Myrtle Glasgow (5, 0, 2).

Grade X — Eva Congdon (7, 0, 2); Elizabeth Higginson (8, 2, 0); Vera Herbert (5, 1, 1); Bjarne Larson (8, 0, 0); Herbert Smith (6, 0, 1); Ena Syme (6, 1, 1).

Grade IX — Floyd Fodor (7, 0, 1); Robert Maguire (7, 0, 2); Clara Miller (7, 1, 0); Annah Peterson (7, 0, 1); John Schoner (7, 3, 0); Clifford Smallwood (7, 1, 0); Raymond Stimson (7, 0, 2).

ALBERTA OIL PRODUCTION HIGHEST IN DOMINION

The production of crude petroleum in Canada during the first six months of 1929, as given by the dominion bureau of statistics in figures just published, was 470,238 barrels, valued at \$1,648,025, an increase of 168,676 barrels and \$682,267 over the first six months of 1928.

Out of the dominion's total production in the first six months, approximately 86 per cent. was from Alberta, accounting for 405,970 barrels of a total of 470,238. Alberta's production jumped approximately 56 per cent., Ontario's contribution was only 60,318 barrels.

Increased production and better prices raised Canada's production during the half year to 55.9 per cent. above the total for the first half of 1928. The value increased 70.6 per cent over the total for last year.

Natural gas production during the half year at 14,087,068,000 cubic feet, valued at \$5,191,178, showed a gain of 10.7 per cent in quantity and 7.2 per cent in value over the figures for the corresponding period last year. Alberta was again the largest producer, the wells of that province yielding 9,763,534,000 cubic feet. Ontario came second with 3,900,000,000 and New Brunswick wells produced 425,434,000. While Ontario's production was less than half the output in Alberta, the value of the natural gas was very nearly as great owing to higher prices in the former province.

Heard at the schoolhouse: Teacher: "What do we use soap for?" Small Boy: "That's what I'd like to know too."

CHURCH NOTICES AND ACTIVITIES

UNITED CHURCH NOTICES

The services next Sunday, November, will be at

Ros — 11 a.m.

Alma Mater — 2 p.m.

Roseberry — 3.30 p.m.

Irma — 7.30 p.m.

The Rev. T. A. Woods will speak at all these services.

We want all our people to give God the right of way the next two weeks. Don't lose what God has for you in these meetings for lost opportunities are seldom if ever regained. There should be an increase in attendance at our Evangelical Mission Services; we want all to make their social activities and household duties to fit in with these meetings. Trust God to make it abundantly worth your while to do this. We count on you for these meetings. Meetings are held every evening except Saturdays at 7.45 in the United Church from November 3rd to November 15th.

GRAND HALLOWEEN CONCERT AND DANCE

A Grand Halloween Concert and Dance will be held in Kiefer's hall on Monday, November 4th. Under the auspices of the Anglican Church. Artists from Wainwright, Mrs. G. Hudson and Mr. Adams, from Jarrow, Mrs. Waite, Mrs. Luxton and Mrs. Barton's instrumental trio, from Irma, Mrs. Roy White, Mrs. Pryce Jones, Mrs. Prothero, Miss Thurston, Mr. Inken and Miss M. E. Price, A.T. C.M. Sketch by Mrs. Adams, Mrs. Batchelor and Mrs. Steele. The Irma and Jarrow Orchestras will be in attendance for the dance. Everyone come and see the spooks. Admission to Concert — Adults 50c children 25c.

Admission to Dance — Gents 50c, Ladies free.

INSPECTION REQUIRED FOR FEED SHIPPED UNDER FREE FREIGHT TARIFF

Every possible precaution will be taken by the Alberta Department of Agriculture to prevent the spread of noxious weeds from one section of the province to another. Under the arrangement recently reached where by hay, straw and greenfeed and feed oats and barley will be shipped free of freight charges into those districts where additional feed will be required during the coming winter.

Any shipments of this kind, it is announced by Hon. George Hoadley, Minister of Agriculture, must be inspected before being loaded, by an official of the Department, and for this purpose two inspectors have been appointed. In the part of the province south of Red Deer inspection of all such shipments must be made by W. G. Lawrie, 325-21st Ave. West, Calgary, and in the northern part of the province inspections will be made by Frank Stevens, whose headquarters are at the Field Crops Branch, Department of Agriculture, Edmonton.

Farmers who contemplate selling hay or feed for shipment under the provisions of the free freight tariff are advised that this hay or feed cannot be loaded until the vendor has secured from one of these inspectors a certificate of its satisfactory freedom from noxious weeds, and any person who proposes to ship feed under the free-freight arrangement would be well advised to communicate with the inspector for his district at the earliest possible date in order that such shipments may not be delayed for lack of inspection.

It may be pointed out that in addition to the area originally outlined in which the free-freight tariff will apply, the following lines have been included: Irricana to Conrith, Nightingale to Norfolk, Grainger to Langdon, Bassano to Dalmead, Gleichen to Langdon and Lomond to Arrowwood.

The regulations as originally drafted applied to baled hay and straw, feed oats, threshed or in the sheaf, and grain screenings. Feed barley has since been added to the list of products which may be shipped into the designated area under the arrangement whereby half the cost of such shipments is borne by the railway company, and half by the Alberta Government.

M. D. Battle River Notices

MUNICIPAL DISTRICT OF BATTLE RIVER No. 423.

Notice is hereby given that the assessment roll of the said Municipal District made for the purpose of the Alberta Assessment Commission has been prepared and will for forty days be open to inspection at the office of the Secretary Treasurer of the Municipal District from 10 o'clock in the forenoon until four o'clock in the afternoon on every day not a public holiday except Saturday and on that day from 10 o'clock in the forenoon until two o'clock in the afternoon and that any person who desires to object to the entry of his name or that of any other person upon said roll or to the assessment of any property or to the assessed value placed upon any property, must within forty days after the date of this notice lodge his complaint in writing with the Secretary Treasurer of the Municipal District.

Dated this 29th day of October, 1929.

R. J. TATE, Sec.-Treas.

A MOTORIZED ROMANCE

He was a poor model.
She was a runaway.
Both were self starters.
They ran into each other by accident.

And both stepped on it.
They broke the speed limit to the altar.

They garaged in a kitchenette apartment.
They called it home but it was only a parking place.
They thought they had more to say to each other than they could both say in a lifetime—

But they soon ran out of gas.
They coasted for awhile, but the old boat couldn't swim up hill.
The inevitable smashup quickly followed.

Each began to sigh for a new model.
Now they agree that romance was a flivver.

But all the same, both are on the used market.

The Average Man and the League

With the closing of the tenth assembly of the League of Nations it is well for those, both in the cities and towns, and the country districts, to get some idea of what the League means to the average citizen.

Immersed in our own affairs and the daily complexities and worries of life, it is hard for the man in the street, or the man in the field to realize what the League means to him. All of us are somewhat hazy about world politics, especially in these days when indifferent crops and business complications make us apt to concentrate on our own immediate affairs. Occasionally we hear high sounding phrases glorifying the accomplishments of the League; at other times the sneers of cynics who advise us to go about our business and take no stock in an agency which can never have any beneficial or practical effect on our lives.

Yet the League and what is done at Geneva are of tremendous concern to all of us. A well known Canadian writer has said: "The League of Nations is not the infallible and mighty thing described in superfluous rhetoric by certain orators, the nations do not tremble with fear at its frown, it has disappointed romantic visionaries, and it does a number of things which little attention is paid. Yet despite all of this, and notwithstanding some failures, the League has more than justified itself. In ten years it has prevented ten wars and become an effective central agency for the consideration of crises and the employment of commonsense arbitration in great and small disputes."

Some people have thought that the League ought to be able to almost automatically put an end to ill-feeling between two South American republics, or prevent Arabs slaughtering Jews in Palestine, in the twinkling of an eye. Such action is almost beyond the power of any agency devised by man. Hate, born of jealousy, avarice, racial and religious antipathy may blaze into wholesale murder at any moment and justice and commonsense are powerless for the moment. But such an agency as the League has time and again proved that once the first outbreak is spent, it can prevent the trouble spreading and restore peace and sanity by conciliation, and if necessary, the invoking of economic and armed pressure.

The League of Nations, in short, has won the respect of the world, not only as an agency that can prevent war, but as a necessity that has grown up with the complexity and interdependence of modern international life.

Canada, like the other nations, and the citizens of Canada, in town and country, must stand foursquare behind the efforts of our children and our children's children to be delivered from those horrors which took the flower of our youth, and made the world a nightmare of strife.

Canada has, up to the present, taken a worthy place in the councils of the League. Other nations have recognized the value of the Canadian contribution, realizing that to a greater extent, perhaps, than most Old World nations, Canada's position is an unselfish one, the outcome of a sincere desire to promote world peace in the interests of all, and not chiefly for the purpose of promoting Canadian security or advancing purely Canadian interests.

Canada's future contribution can only be measured by the degree of interest manifested by its citizenship and the support extended by the Canadian people to their Government in all efforts put forth to strengthen the League and enlarge the scope of its humanitarian and peace promoting programmes.

London's Oldest Bank

London's oldest bank is the Hoare's, the age of which cannot be certainly stated; but there is in existence a receipt dated 1832 for a money deposited there in that year with Lawrence Hoare, who was in business as a goldsmith.

Meat Consumers Protected.

The best branding and grading service directed by the Dominion Department of Agriculture went into effect throughout Canada, September 23rd. The object is to protect the consumer insofar as the quality of the meat is concerned.

Needless Pain!

Some folks take pain for granted. They let a cold "run its course." They wait for their headaches to "wear off." If suffering from neuralgia or from neuritis, they rely on feeling better in the morning.

Meantime, they suffer unnecessary pain. Unnecessary, because there is an antidote. Aspirin tablets always offer immediate relief from various aches and pains we once had to endure. If pain persists, consult your doctor as to its cause.

Save yourself a lot of pain and discomfort through the many proven uses of Aspirin. Aspirin is safe. Always the same. All drug stores with complete directions.

ASPIRIN
TRADE MARK REG.

Alberta As Oil Producer

Production Now Greater Than That Of Montana, New Mexico and Colorado

Alberta is now producing more oil than the states of Colorado, New Mexico and Montana, combined, according to a compilation made by F. J. S. Sur, Calgary geologist. He said, "It may be interesting to the oil fraternity of Canada to know that though Alberta is a body in the ranks of the oil producing regions, it is producing now from its Turner Valley field more oil in barrels than the combined output of Montana, New Mexico and Colorado; and when the figures are computed into dollars the value of Alberta's production is seen to be more than twice that of the three states in question."

A STOMACH RESTORER

Good Advice From One Who Had Suffered Much

"Discomfort after eating, gas pains in the intestinal tract, pains around the waist, rising in the chest, called heartburn, are common symptoms of dyspepsia. It is a condition often neglected until it has done permanent harm, yet the treatment is simple. The great contributing cause to this trouble is thin blood. Good blood and plenty of it is required by the stomach to function properly. If the blood is thin the stomach becomes sluggish, food lies undigested, gas forms causing pains, often around the heart. Instead of getting nourishment from the blood the system gets poison. The proper treatment is to enrich the blood, and there is no other medicine can do this as promptly as effectively as Dr. Williams' Pink Pills. The sole mission of these pills is to make new, rich, red blood, which reaches every organ and nerve in the body and thus not only banishes indigestion and dyspepsia, but also all other troubles having their origin in weak, watery blood."

The splendid results following the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Lucy A. Cushing, a former resident of Kemp, N.S., now living with her son at West Bethel, Me. Mrs. Cushing says: "I have no hesitation in strongly recommending Dr. Williams' Pink Pills. For years I was a great sufferer from indigestion. Always after eating I suffered from pains in my stomach and other distressing symptoms that accompany this ailment. I tried different doctors while residing at my old home and also at West Bethel, but without getting relief. I was advised by a friend to try Dr. Williams' Pink Pills. I did so and I must say that I am feeling very grateful ever since to Dr. Williams, who gave me the advice. I soon found the pills helping me and by the time I had taken nine boxes my system was completely restored to good health. Though I am now in my 76th year I am feeling as well and as smart as I did at 35, and am enjoying life once more."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

High Quality Seed

Inspection Shows Ample Supply To Meet Requirements

G. M. Stewart, head of the Dominion seed branch at Calgary, states that the 1929 inspection of standing fields of grain for members of the Canadian Seed Growers' Association, shows it can be reasonably expected that there will be an ample supply of seed of high quality to meet requirements for next year. Yield seems to be somewhat higher than had been generally reported. There were nine inspectors out and 500 fields, viewed, including many in the Peace River country.

Deposits Are Important

British and American Capital Interested In Manitoba Tin

"British and American capital is definitely interested in the possibilities of tin in Manitoba," according to the Free Press Evening Bulletin. "Tin ore has been found in many places, and work now in progress in two or three camps will go far towards proving whether or not it is to be found in commercial quantities. But whatever the outcome, both British and American capitalists intend to be strongly represented, because of the supreme importance of such deposits."

Receives New Appointment

Dr. Seymour Hadwin, research of animal diseases at the University of Saskatchewan, has been appointed director of veterinary science for the Ontario Research Foundation.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

William Baker, mail carrier at Forest, Ohio, on special occasions wears his wedding shoes. The shoes are 44 years old.

For Sprains—Use Minard's Liniment.

W. N. U. 1808

Ventured Into Northland

Three American Women Made Interesting Trip This Summer

Three women in a boat, not to mention the guide, made a three weeks' journey down the Peace River this summer to fulfill the adventurous dreams of three American girls. For the far northland of Canada has an allure not alone for the sturdy settlers who farm its broad stretches but is as winsome in its appeal to the modern explorer.

Meeting at Vancouver, Dr. Jane Lightning, a doctor of philosophy, from the University of Minnesota, Dr. Lydia Lightning, her sister, a physician from Philadelphia, and Miss Lillian Larson, a physical training instructor from Casper, Wyoming, took the boat to Prince Rupert, the train to Prince George, and from there their adventures began.

Judge Robertson of Prince Rupert, assisted the party of women to make the final arrangements. He is an old-timer of the district and knows what is needed on such a trip. Here they had their own boat made with a small motor attached with which they were to make the trip.

From Prince Rupert, the three women made the trip to Summit Lake by truck through the beautiful country of northern British Columbia. Boating for days up the lakes and rivers until the Peace River itself was reached was a delightful experience, Miss Larson said.

At Fort MacLeod an Indian Chief opened his log house to them, and inviting the neighborhood to a powwow, they danced until the small hours of the next morning. The party camped every night along the river while their days were filled with fishing.

Every foot for inhabited place they came to was a signal for a dance which began early and lasted late.

Open Kindergarten

For Japanese Children

School Has Been Inaugurated At Kobe By Canadians

The first kindergarten for children of foreign residents of Kobe has been opened by the Canadian Academy in this city. The kindergarten stands on premises offered to the academy by the Kobe Union Church.

Miss Winifred Taylor, of London, Ontario, who has specialized in kindergarten work and who recently arrived in Japan, is in charge of this new department of Canadian educational activities in this country. Mrs. A. J. Kentwell will assist her.

The initial enrolment of the kindergarten is 26 children, representing nine nationalities, including besides Canadian, Japanese, British, United States, Danish, Swiss, German, Russian and Indian nationalities. H. F. Woodsworth, chairman of the board of the Canadian Academy, stated that with the opening of this department for the little children, the academy now has a complete course of educating for a school of its grade, that is, from infancy up to entrance at a university.

The new department, Mr. Woodsworth continued, is the result of a good deal of planning by the faculty, the idea having been conceived some years ago, but for various reasons it has been unable to carry it into practice until now.

It was pointed out that the kindergarten, open as it is to all nationalities, has an important mission in such a cosmopolitan community as that of Kobe, as it can render great service in stimulating international mindedness through the children.

Persian Balm Preserves and Enhances Women's Natural Beauty

Persian Balm preserves and enhances women's natural beauty. For sheer feminine loveliness it is unrivalled. Tones and rejuvenates the skin, and makes it exquisite in texture. Delightful to use. Smooth and velvety, it imparts a youthful charm to every complexion. Indispensable to all daily women. Especially recommended to make hands soft and white. Delicately fragrant. Preserves and enhances the loveliest complexions.

England Sends Trees To China

To Be Planted Around Mausoleum Of Sun Yat-Sen

Representative trees, an oak sapling and a young birch tree are to be sent from Kew Gardens, London, England, to be planted in the grounds surrounding the mausoleum of the Chinese statesman, Sun Yat-Sen at Nanjing. Reports from the East say that when the mausoleum of the first Chinese president and its surroundings are completed, they will form one of the world's most beautiful spectacles.

Minard's Liniment For Neuritis.

Young people aren't as quiet as the young people of olden days used to be, but neither are the old people.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Advertise Your Town

Signs Showing Name Would Be Appreciated By Touring Visitors

In this vacation season automobile tourists must be impressed with the difficulty of knowing what town or village they are approaching, often when within its outer limits, because of the absence of a sign giving the town name, says the Boston Transcript. "It is true that rural post offices are obliged to bear the town name, but unless some enterprising board of trade takes the matter in hand, the information regarding the place is kept secret."

This is poor enterprise, and worse advertising. Proper announcement of the town or city soon to be reached is information which the traveller often craves, and is always of interest, even though travelling at a speed makes sight of the attractions necessarily brief.

An Oil Of Merit.—Dr. Thomas' Electric Oil is "not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal."

Canadian Wheat For India

A shipment of Canadian wheat consigned from Montreal to India is believed to establish a new record in Canadian wheat exports. Conditions in India called for outside purchases and Canada, as the foremost wheat exporting country in the world, received the order.

The Industrial West

Growing Importance Of Manufacturing Is Shown By Recent Figures

"Western Canada is no longer merely a wheat and cattle country," says the Winnipeg Board of Trade News Bulletin. "While it is the greatest factor in the world's wheat market, the importance of its manufacturing is also steadily increasing. A recent return shows that there are in the three provinces of Manitoba, Saskatchewan and Alberta, 2,356 manufacturing concerns with a capital investment of over \$270,000,000. Manitoba leads with 859 industrial establishments. Alberta is second, with 776, and Saskatchewan third with 721."

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

A Pertinent Question

Canada last year produced 2,414,303 tons of newsprint, valued at \$144,146,632. Pulp and paper is now the Dominion's chief manufacturing industry. But what are Canada and the United States doing to anticipate forest conditions 20 years hence?

The honest grafter confines his operations to trees and shrubs.

Napoleon Bonaparte was about five feet three inches in height.

6 Suggestions

Make Your Farm More Comfortable, More Livable and More Profitable with These Simple Spare-time Improvements

If you have any time on your hands, here are six suggestions which will make an amazing difference in the attractiveness and efficiency of your farm.

First—Buy a supply of Gyproc Fireproof Wallboard. Then erect Gyproc partitions in your attic, changing the waste space into an additional room or two. Imagine how much more comfortable the family will be with the attic converted into a clean, inviting third story.

Second—Renovate the lower rooms by nailing Gyproc right over cracked and faded walls. You can decorate the flat, smooth Gyproc surfaces with Alabastine, paint or any other finish. And what a difference it will make to your home.

Third—Line your garage with Gyproc. Gyproc will make it fire-proof, cold resistant and a safer, more substantial home for your car.

Fourth—Gyproc your poultry house. Your flock will have better health, and year-long protection from fire, cold, heat and vermin.

Fifth—Line your grain bins, barns, stables and other buildings with Gyproc. By doing so you will make them more valuable, fire-safe, cold resistant and 50 per cent more healthful for your stock to live in.

Sixth—Look about for cracked, warped or rotted walls, partitions and ceilings and repair them with Gyproc. Such repairs are quick and inexpensive to make because Gyproc saws, nails and cuts so easily—saving time and labor.

The New Triumph Marconi

Batteryless Console

The performance of this new Marconi model sets a new high standard in the field of Batteryless Radio.

Powered with nine of the latest "AC" Radiotrons, it operates direct from the house lighting current, furnishing the sensitive selectivity and tone brilliancy that will satisfy the most critical.

Built into its handsome two-tone matched walnut cabinet is a Superb Dynamic Speaker, assuring a smoothness and a fidelity of reproduction over the entire musical scale. Rattle or distortion is pleasingly absent from reception even when operated at roomfilling volume.

Judged by any standard this new Triumph Marconi Batteryless is a Receiver the owner may well be proud of.

Complete with tubes \$268.00
Batteryless Table Model, Complete \$175.00

THE NEW TRIUMPH BATTERY OPERATED
CONSOLE, Less Accessories \$160.00

P. J. Hardy, Dealer

IRMA,

Alberta

Mr. New-Car Owner:—

The valves are the "heart of the motor" in your new car and when you have registered about 2,000 miles the valves are thoroughly "cured", have taken their new shape under heat and are ready for a recondition by machinery.

At this mileage a valve inspection will show that there is a slight loss at each explosion, which if allowed to continue will burn both valves and seats, and you are consequently paying for power that does not reach your drive shaft.

This loss means a decrease in power of from fifteen to thirty per cent. A power decrease you should be enjoying instead of losing, and you are, therefore, paying for a valve recondition unknowingly.

Don't guess about this important matter of motor efficiency—bring in your car for a valve inspection.

—Yours for More Mileage.

It's Better to Buy at Home

Main Street

Mrs. F. Peterson has returned after visiting with her daughter at Heath. Mr. J. G. Clark returned Wednesday after spending a few days in the City.

Miss Grace Love left Monday to attend the Vermilion School of Agriculture.

Mr. and Mrs. R. J. Tate returned Monday after spending two weeks in Edmonton.

Mrs. R. A. Maguire received word Tuesday that her brother Mr. Brown had passed away at his home at Kirkland, Ontario.

Mrs. Ralph Dunlop and son have returned to Irma to visit Mrs. Dunlop's parents before returning to her home at Indian Head, Manitoba.

Monday evening the members of the Irma Masonic Lodge motored to Manville to visit the Manville lodge. Practically all of the Irma members turned out and enjoyed a good time.

Rev. Mr. Geeson, Mrs. Geeson, Mrs. Locke and Mr. Jas. Fenton, left Wednesday to attend the Northern Alberta Laymen's Convention to be held in McDougall Church, Edmonton on Thursday and Friday.

Mr. and Mrs. W. E. McCrea have gone to the Peace River where they intend making their future home. Mr. McCrea has been agent for the Rawleigh Co. in Irma for the past three years during which time both he and Mrs. McCrea have made a host of friends who are sorry to see them leave the Irma district.

Saturday afternoon while driving to town, Mr. and Mrs. R. W. Mitchell, met with an accident which fortunately was not serious. Just east of town the horses shied and upset the buggy in the ditch spilling both of the occupants out. Outside of a bad shaking up both Mr. and Mrs. Mitchell escaped any serious injury.

TENDERS

Tenders will be received till Tuesday November 12th for the delivery of eight cubic cords of dry stove wood to be delivered by December 1st. Also for eight tons of good coal to be delivered to Crescent Hill School. — W. T. Steele, Secretary, Irma, Alta. —

NOTICE — To hunters and trappers. Parties destroying fences or trapping on the following lands will be prosecuted. Section 25, and S.W. of 36, Township 46, Range 9, west of the 4th, and S.W. of quarter of 30, Township 46, Range 8, west of the 4th. — W. J. McCartney, Owner. —

"A GOLDEN MILESTONE"

The announcement that the British and Foreign Bible Society has just issued its Popular Report for the current year will be welcomed by all those who have had the opportunity of reading the report of the work of the Society. There is perhaps no other record of the kind in the world which presents in such a fascinating way a survey of Christian missionary enterprise, or gives with greater insight the religious condition of the work in such brief and attractive form.

This year the Report is entitled "Another Milestone," and this is a very appropriate title as 1929 marks its 125th anniversary—and around the idea of the "Golden Milestone" presented in the Forum at Rome centuries ago, from which all distances in the Roman Empire were measured, the Editor, Rev. E. W. Smith, centres the story of the Society's activities in translation, in circulation, and in the past 25 years. The chapter "Let's speak for ourselves—"A backward glance over travelled roads"; "Along the road"; "Meeting the mileages"; It is surely an achievement to have issued 397 million portions of the Bible in 125 years; to have been responsible for its translation in 618 different tongues; and to have circulated it by means of Churches and Missionary Societies, Bible Houses and Colporteurs, over practically the known world. 1929 was the "Golden Milestone" for the issue for that year was over 11 millions, the highest in the history of the Society, and the gifts received were the greatest on record.

But what the Report emphasizes most is the need of the Word of God for travellers over life's dusty and difficult ways, and it contains an invitation to all who are interested in the moral and spiritual good of the world, to become what the ancient Romans called "keepers of the road", to meet its mileage cost and to help the society to build the great moral and spiritual roads along which the feet of humanity must travel in order to reach the divine goal.

We cannot commend too highly the attractive form in which the book is issued, and we cannot help giving a word of appreciation to its present Editor, who has availed himself of literary references ancient and modern, and has in popular form given us a stirring story of the growth of a great Society, of its achievements in the past, and of its growth and aims for the future.

The Wastebasket

"My heart flames like a blazing fire," said a Jarro fellow to his Kinsella girl. "Don't be a fuel," she replied.

"Will you pay me what I'm worth" asked a college graduate at Killam while looking for a job. "I'll do better than that," replied his prospective employer. "I'll pay you a small salary to start with."

"Dinner is served in three courses, sir," said a waiter in a Bruce restaurant. "What are the courses?" asked the customer. "Coarse bread, coarse meat, and coarse vegetables," the waiter replied.

The girl clerks in a Toffield store are said to be very resourceful. The other morning several of them discovered they had forgotten to bring their powder puffs from home. But they fixed it up by powdering their faces with marshmallows.

Heard at the poker party: "Do you believe in church lotteries?" "Well, I was married in church."

"Are you quite sure you can cut your meat?" asked a lady of a youngster at a church social here recently. "Oh, yesum," he replied. "We often have it as tough as this at home."

"The congregation seemed to agree with your sermon," said a deacon of a church at Vegreville to the new pastor last Sunday. "Why, did they say anything about it?" asked the preacher, greatly pleased. "No, but I noticed a lot of them nodding during the sermon," was the reply.

"Auctioneering is my special line of business," says an advertisement in a neighboring exchange. "Prices reasonable. If I am out arrange dates with my wife."

There is no such thing as a good girl gone wrong, says a careful observer. It's just a bad girl found out.

"That boy is always trying to put things off until tomorrow," said the wife of a local citizen to her husband concerning their son. "He'll never get along that way in this country," the old man replied. "He ought to be able to put 'em off until week after next."

Here and There

380

Statistics gathered by the New Brunswick Government bureau of information and tourist travel show an increase of 25 per cent. in the number of motor tourists from the United States entering Canada at border points of the province starting their vacation in Canada.

His Excellency the Governor-General of Canada will extend his patronage to the Canadian Pacific series of concerts of British and Canadian music to be given across Canada, beginning in September and continuing until Spring of 1930, according to information given out by J. Murray Gibbon, general publicity agent of the railway.

Fishing bowed to chivalry one day recently at St. Ignace Island, Canadian Pacific angling resort in the Georgian Bay, when Judge B. Williams of Jackson, Mich., got a bite simultaneously with his wife both fishing from the same boat. "The guide couldn't handle the canoe so that both anglers would have chance to land a fish, so the judge put pressure on his catch which broke away Mrs. Williams. After a half-hour fight landed a fine fish.

Here and There

(407)

In connection with "Fire Prevention Week", observed throughout Canada and the United States between October 6 and October 13, a been sent over the entire Canadian Pacific Railway system by Grant Hall, senior vice-president of the Company, urging all officers and employees of the railway to co-operate by setting a good example of fire and the removal of their causes. This has been followed up by a circular letter setting forth in detail how these objects may be accomplished.

"If the English people were well advised they would not be at all loath to invest in Canada," stated Sir William Plender, president of the Institute of Chartered Accountants of England and Wales, a passenger on the Empress of Scotland, after attending the international congress of accountants recently held in New York. "One of the best sources of obtaining British capital is Canadian ventures in which Canadian capital is also invested and the people connected with them of high repute and standing," he added.

FIRE THREATENED
SCHOOL HOUSE

(From The Viking News)

The \$20,000.00 pride of Viking and district, the public school, had a narrow escape from being destroyed by fire about 7.30 Tuesday evening, when the pump house situated about six feet from the north side of the school house, caught fire and burned to the ground in a very short time. If it had not been for the prompt response of volunteers who brought the two chemical engines to the school in record time, the chances are that today the school building itself would be a smouldering mass of ruins.

The cottage school in the rear of the main building, used by the primary grades, was directly in the path of the sparks and flames from the pump house, but this was saved by some quick work by volunteers who answered the call when the alarm was given. A stream from one of the chemicals played on the roof and east side of the cottage school, while the other was used on the pump house to good effect. Mr. Chedour, the caretaker, says that he had gone to the pump house to light the gas stove at about 7.30, as during the previous night the pump had frozen. When he struck a match the pump house became a mass of flames. It is supposed that someone had entered the pump house and left the gas turned on, and when the match was struck the gas exploded.

The damage is estimated at about \$200.00. No insurance was carried on the pump house or contents.

School opened as usual on Wednesday morning.

The main building burned down in November 1913, only two months after its completion. Citizens will remember under what difficulties school was held in the various churches and halls in town until the school was rebuilt. It is indeed fortunate that a similar calamity did not happen again Tuesday evening.

The fire brought to light the need of an organized fire fighting brigade, although too much credit cannot be given those who jumped in and saved the day.

Armistice day will soon be upon us, a day imprinted in the minds of all, not as being one of "national" importance but of "worldwide" importance. The extent to which this day when it occurred was lauded by people of every nationality cannot be measured, and the relief to the pent up suffering of relatives anxiously concerned about the welfare of their own will never be forgotten. We owe to Canada's 60,000 men who gave their lives, a solemn tribute as Canadians, and we should all bring this to attention once per year.

November 11th, is the day for this observance when the young nation of Canada will display its remembrance by wearing the Poppy.

These flowers are made by disabled soldiers under the direction of the Canadian government. Each poppy bears the Veterans stamp.

The local sale of Poppies will be handled by the G.W.V.A. as in former years, and will be on sale, Saturday, November 9th.

A grand hall will be held in the new community hall on Monday, November 11th, under the auspices of the Viking Elks Lodge. The Jelly Sparks orchestra will furnish music, and everyone, far and near, should take advantage of the holiday to come and enjoy the splendid dancing floor and mingle with the crowds that patronize the dances. Popular prices will prevail.

Plan to come to Viking for the Armistice and Thanksgiving social evening.

A very pleasant affair was the novelty dance sponsored by the Elks at the new Community hall last Wednesday evening. People were in attendance from several neighboring communities.

Dr. and Mrs. Rodgers, of Alaska, were visitors here last week at the home of Mrs. Rodgers's sister, Mrs. Fee. They left Friday evening for Buffalo, New York, to spend the winter.

Two accordion players are furnishing music for a dance in the new community hall on Wednesday, November 6th.

The Lutheran choir from Ryley gave a very excellent program in the Viking Lutheran church last Sunday afternoon.

The regular monthly meeting of the Poplar Hill U.F.A. will be held in the school house Friday evening, November 1st, at 8.30 o'clock.

The Junior Red Cross are holding a card party on Friday evening, November 1st, in the Poplar Hill school house commencing at 8 o'clock. Everybody invited.

Mr. and Mrs. G. W. Green and little sons were visitors in Edmonton the first of the week.

Household Hints

"I MADE IT MYSELF"

There are, I fancy, few of us who at one time or another have not received gifts which are so useless, that were it not for the sentiment attached to them we would willingly donate them to the waste paper basket, or wish them back to the giver. When so much pleasure may be derived from gifts that are either essentially useful or beautiful, it seems a pity that any other kind should be given or received.

An excellent idea, and one which if carried out should prove a boon to us when we are trying to decide on some suitable birthday or Christmas gift, is to keep a special gift note book in which, besides keeping the names and addresses of our friends, we can jot down such items as their favorite hobbies, whether they are fond of travelling or reading, the color or style of their bedrooms—anything we heard them say they were particularly fond of, or any suggestions for gifts thought of when visiting their houses.

Shoe Bags

If you have a friend who you know loves to keep her clothes beautifully, or does much in the way of travelling, unusual and endlessly useful presents are dimity shoe bags—an individual bag for each shoe. They have many advantages, being exquisitely dainty, easily laundered, taking up no space, and preventing the delicate shoes from becoming scuffed or tarnished when hanging on shoe racks or packed for travelling. Three to six pairs of bags make an acceptable gift. Half a yard of dimity will make one pair of bags. Cut the bags lengthwise of the goods. French seam the sides and bottoms, and finish the tops with two inch hems. An initial or flower design worked in cross stitch is applied in the centre of each bag. If each pair of bags is embroidered with a different colored initial or different design, the owner will find it easy to distinguish the contents without the necessity of opening the dimity. Dimity may be bought in various colors such as, pale pink, rose, blue, mauve and white. The total cost of making three pairs of bags (six bags) is approximately eighty cents.

A Tea-pot Cozy

Crisp linen in shades of pale yellow, light green, mauve, or cream, may be used to make a charming tea-pot cozy, which is embroidered in a variety of soft colored wools. Its freshness and daintiness would grace any tea tray, and particularly one to be served to an invalid. It is advisable before cutting the linen to make a paper pattern, allowing one inch all the way round for seams. Bend a piece of paper in half. Cut the pattern to the sizes required. Using the pattern, cut two layers of linen, two layers of silk for the lining, and two layers of cotton wool; about two inches thick.

With a soft pencil, faintly indicate on the right side of the linen the outline of the design to be embroidered. Soft yarns in pastel shades of blue, mauve, violet, pink, orange, and so on. Finish the bottom of the cozy with an uneven border of variegated greens. The stitches should be bold and effective.

The embroidery completed, lay the outside pieces of linen face to face on the table. Baste the rounded edges together. On top of these place one layer of cotton wool. Then two layers of the silk for lining, and again one layer of cotton wool. Baste the rounded edges of these six thicknesses together. When securely basted, stitch through the six thicknesses on the machine, about half an inch from the edge, using a coarse needle and coarse stitch. Leave the two lower edges of the cozy free. Trim any unevenness or bulkiness with the scissors. Place the hand between the two layers of linen, and turn the cozy inside out. Turn in, and sew three thicknesses of the lower edge of the cozy together, thus forming a cozy with a linen covering and silk lining. Buttonhole stitch with green wool over the rounded or upper part of cozy, and finish it with buttonholed loop at the centre top. The approximate cost of a tea-pot cozy measuring about 10 inches by 12 inches when finished is 95 cents. One-third yard linen at 75 cents yard—25 cents. Assortment of wool ends two for 5 cents—30 cents. One-third yard silk broadcloth lining at about 60 cents yard—20 cents. Cotton wool stuffing 30 cents—or less according to the quality used.

Down to Brass Tacks

Before I married Maggie dear
I was her pumpkin pie,
Her precious peach, her honey lamb,
The apple of her eye.

But after years of married life
This thought I pause to utter,
Those fancy names are gone, and now
I'm just her bread and butter.

WEEKLY REVIEW

PROV. MARKETS

CATTLE

BEEF—Edmonton reports cattle market as displaying an active undertone this week. The choice heavy steers \$7@7.25; choice light from \$7@7.50; good from \$6.75@7; medium at \$6@6.50; and the common stuff from \$5.50@6.

FEEDERS—STOCKERS—Demand in this market slightly improved. Feeder steers are bringing \$5@6.75.

HOGS

Edmonton reports select bacon bringing \$10.35; bacon \$9.85 and butcher hogs \$9.50, this week.

SHEEP

Edmonton reports sheep prices on steady basis. Yearlings bring \$6.75@7.25.

Grain

Winnipeg market quiet at easier prices on Wednesday. Bull interests not active, as export business was light and Liverpool and Buenos Aires markets easier. Broccoli estimates world requirements for this crop at only 696,000,000, as compared with slightly over 900 millions last year.

Butterfat

This week's quotations are: Special grade, 38c; first, 36c, and second, 33c, at country points, with centralizers paying the same price f.o.b. shipping point.

Poultry—Eggs

Poultry—Receipts are picking up, but birds are not of very good quality.

Eggs—Extras and first are steady at 32c and 30c, respectively with seconds bringing 20c and cracks 18c.

Hay—Greenfeed

Hay—Timothy and upland offerings fair. Upland bringing \$12@12.50, with timothy \$19, at country points. Good demand at city market. Receipts lighter. Upland making \$15.00 per ton, delivered.

Feed oats—Top grades are in demand; receipts light; quoted at 55c@60c.

Wool

Quotation of 14c prevails this week. Furs—Badger, \$12@25; coyote, \$7@18; muskrat 75c@1; weasel 50c@2.

BANK OF MONTREAL

FINAL CROP REPORT

Manitoba received more rain during the season than Saskatchewan and Alberta and while the wheat yield is light it is estimated to be about 75 per cent. of normal. A crop below average was harvested in central and southern Saskatchewan, but taking the Province as a whole, the wheat yield is about 66 per cent. of normal. Lack of moisture in central and northeastern Alberta caused serious damage resulting in complete or partial failure in many districts. The estimated yield of wheat in that Province is 86,547,000 bushels as compared with the average yield for the past five years of 120,041,000 bushels. In the Prairie Provinces this year, 1,157,000 acres more land was sown to crop than in 1928, Saskatchewan having the largest increase in its history. It is estimated that 24,297,000 acres were sown to wheat, 7,732,000 acres to oats and 5,114,000 acres to barley, as compared with 23,158,000 acres to wheat, 8,137,000 acres to oats and 4,104,000 acres to barley last year. The seed bed was in good condition with sufficient moisture for germination but there was little reserve. Seeding became general about the end of April and was completed under favorable conditions early in June. Early growth was slow and towards the end of June the crop was about ten days later than usual. During July and early August dry weather prevailed but scattered showers prevented what at one time threatened to be a crop failure. The grain matured rapidly and cutting became general by mid-August. Harvesting operations were conducted under most favorable conditions and threshing has now been completed. Although the total wheat production is only half the 1928 yield, the total output is about 68 per cent. of average for the past five years and 77 per cent. of the ten year average. The wheat is of exceptionally high grade with excellent milling qualities. Since 1st August 162,000,000 bushels have been delivered in the three Prairie Provinces as compared with 228,000,000 bushels at this time last year.

Right Hon. J. Ramsay MacDonald, Prime Minister of Britain, compares notes with Right Hon. W. L. Mackenzie King, Prime Minister of Canada, when the two Premiers met at the Canadian National Railway station, Ottawa, where Premier MacDonald had just alighted from the car "Bonaventure," which carried him across Eastern Canada.

Dyeing this way makes faded Dresses NEW

DIAMOND DYES are the finest dyes you can buy. They are made to give you real service. They contain the very highest quality dyes that can be produced. It's the quality of the dyes in Diamond Dyes that give such soft, bright, new-looking colors; that make them go on so evenly—without spotting or streaking; that enable them to keep their depth and brilliance through wear and washings. Next time you have dyeing to do try Diamond Dyes. See how easy and simple it is to use them. Then compare results. You will surely agree Diamond Dyes are better dyes. The white package of Diamond Dyes

is the highest quality dye, prepared for general use. It will dye on silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk and wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

WORLD HAPPENINGS BRIEFLY TOLD

Italy has accepted the British invitation to a five-power naval conference.

The French cabinet, has decided formally to accept the British invitation to participate in a five-power naval limit conference in January.

To sell British Columbia lumber to New Zealand and Australia, a delegation of mill owners and operators will leave Vancouver, December 11, on the Korangi.

John T. Phelan, 69, superintendent in charge of the Dominion Government Telegraphs in British Columbia, with headquarters in Vancouver, died at Victoria recently.

Officials of the Union Terminal Elevator Company, of which W. A. Anderson, Winnipeg, is president, have announced plans for the immediate construction of a one million bushel addition to the Port Arthur plant.

Commissioner Lucy Booth-Helberg, youngest sister of the late General Bramwell Booth, received orders from General Edward J. Higgins, head of the Salvation Army, to proceed to South America and take charge of the organization's work there.

Canadian railways earned larger gross operating revenues in 1925 than in any previous year. Freight revenues amounted to \$815,633,456, passenger revenues to \$84,313,962, and total revenues to \$869,947,418. The freight revenue was by far the largest ever earned.

French Government statistics compiled at the end of the present bathing season show the surprising total of 20 drownings daily, most of them children who venture beyond their depth. There is a growing agitation for more stringent regulations regarding life guards.

A Floating Theatre

An old four-masted schooner will be fitted up in the near future to form a floating theatre. The ship will contain a modern stage and seating capacity for 500 persons.

Where Realism Won

Uninvited Guests Took First Prize At Fancy Dress Ball

A plumber and his mate after having attended a burst water pipe at a big hotel at Harrogate, Yorkshire, England, walked into the Royal Hall, where a fancy dress ball was in progress. Prizes were to be given for the best costumes. The two were, in their working clothes and carrying their tools, so they wrote on a card, "Plumber and his mate," and entered the costume competition. To their surprise they won the first prize. It was not until later that it was learned that they were not guests at the ball.

Recipes For This Week

(By Betty Barclay)

MARMALADE FRENCH TOAST

2 eggs.
1/2 teaspoon salt.
1 tablespoon sugar.
1 cup milk.
6 slices bread 1/2-inch thick.
Orange marmalade.

Beat eggs; add salt, sugar, milk. Spread bread with orange marmalade; put slices together in pairs; soak in egg and milk mixture until softened, and cook on a hot, buttered griddle until delicately browned, turn, and brown on other side, and serve for breakfast or lunch.

RUNNAGE PICKLES

(From British Columbia.)

Chop 2 quarts green tomatoes, 1 quart ripe tomatoes, 1 medium cabbage, 3 large onions, 3 roots celery and 1/2 teaspoon pepper. Sprinkle with 1/2 cup salt and let stand overnight. In morning drain in colander, then add 3 parts vinegar, 2 heaping cups brown sugar, and one teaspoon mustard mixed with a little vinegar. Cook for about one hour and seal.

The call of the open road: "Drive over to one side while I give you a ticket."

The person who returns from a vacation, posted his passed a practical intelligence test—

Planning To Change Desert Into Garden

French Engineers Working On Idea To Irrigate Sahara

The most stupendous engineering scheme the world has ever known is in the process of being blue-printed by three engineers of Marseilles, France.

They have spent four years in a preliminary survey and in three years more will be ready to propose a plan which will change the entire map of South Europe, join the Mediterranean islands to the mainland, and 430,000 square miles to the possessions of France and Italy, and turn the Sahara desert into the world's most prolific garden.

At least a hundred plans for irrigating the Sahara desert have been advanced within 50 years, but none has been so thorough as this one. The scheme is to build two super-dams, one at Gibraltar and one at the Dardanelles and bottle up the Mediterranean until it becomes a fresh-water lake, supplied by the European and African rivers. Enormous pumps would be installed to force this water into canals leading to the desert.

Though the engineers admit that they do not expect the governments of Europe to take kindly to their scheme, they seem to be enjoying themselves.

Winnipeg Newspaper Union
The Winnipeg Newspaper Union is a union of newspaper workers in Winnipeg, Manitoba. It is a union of newspaper workers in Winnipeg, Manitoba. It is a union of newspaper workers in Winnipeg, Manitoba.

YOUTHFULLY SMART
The Spanish influence is smart new note in brick red sheer woollen with throat scarf with plaited ends. It is essentially youthful with curved neckline emphasized by finely skirted side treatment of skirt, that extend across back. The front of skirt left in panel effect, adds considerable length to silhouette.

The yoked treatment of bodice is another interesting new feature. Sleeves have turn-down flared cuffs. Style No. 705 is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust.

It is one of the smartest models of the season for general daytime occasions, and especially lovely to wear to the football games.

Midnight blue crepe de chine is another fashionable choice that is a favorite with college girl and business woman.

Dull black silk crepe with scarf lined with eggshell shade is effective. Black crepe satin, canton crepe in plum shade, and gray red silk crepe self-trimmed are fascinating combinations.

Wool jersey in bottle green, printed kashmir jersey in beige and brown tone and feather-weight tweed in black and white ideal selections.

Pattern price 25 cents, in stamps or coin (coin is preferred). Wrap coin carefully.

Makes First Grain Entry

Saskatchewan Farmer Submits Sample Of Victory Oats For Chicago Grain Show

To a Saskatchewan grain grower, James A. Parr, of Langham, goes the distinction of having made the first entry from Canada, to be received for the International Grain and Hay Show to be held in Chicago, November 28 to December 7.

According to the exposition's management, Parr's entry, which consists of a sample of Victory oats, will be matched with products of the fields from the farthestmost corners of the world, which are sent to compete in this premier crop show of the country, annually held in connection with the International Livestock Exposition.

Already for the 1929 event, samples of three varieties of wheat have been received from New South Wales.

Had Diarrhoea Bowels So Active Feared For His Life

Mrs. S. J. Jago, Canobie, N.B. writes: "My little boy, when three years old, had a severe attack of diarrhoea. The bowels were so active and he vomited so much I feared for his life. I tried many medicines, but he was always getting worse. A friend told me of

and after the second day I saw an improvement. I gave him almost half a bottle and he was completely relieved. I have used it for the other children, and my husband and myself. My husband gives it great praise.

and when he goes away from home to work he always takes a bottle with him."

Scientists Declare

Eiffel Tower Wobbles

Experts Discover Gigantic Structure In Paris Twists With the Sun

Probably none of the 13,268,936 people, including many Americans, who have mounted the Eiffel Tower since it was opened to the public in 1889, were aware that the giant structure wobbled beneath them, twisting and turning like a thing of life.

The tower is heliostatic. In the warmer weather it suffers more from this structural malady than in the cold winter months, but all the year round it moves continuously.

In oppressive weather, the tower moves with the sun. During 24 hours in the hottest time of the year the twist as the summit makes its eclipse from east to west amounts to 17 centimeters, roughly the width of three average size newspaper columns.

Since the tower rears its head 1,000 feet in the air it may be understood why passers-by and even conscientious sightseers who mount to the top to look down on Paris are unaware of the wobble. As a matter of fact, scientists themselves have just discovered it.

For years a wobble has been generally believed by Parisians that the Eiffel Tower daily adds something to its height because of the atmosphere, but this is denied by M. Lherault, one of the tower officials.

"That yarn was probably invented by newspapermen," he declares. "The tower is fixed firmly in the earth on foundations from none to 15 meters deep. Measurements made by scientists at the top of its 300-meters shaft have detected a torsion in hot weather; only the metal on the sunniest side being affected; with the result that the structure at the top (but not below the second landing), bends outwards an infinitesimally small degree every day."

The eclipse develops to its longest point at the hottest hour. As the day cools the twist vanishes.

The attraction which the tower still exercises for visitors is as strong as ever. In the tourist season the crowd who wait their turn to be whizzed up to its dizzy heights number thousands, mainly Americans. But the record for visitors set up in the year of the tower's opening, 1889, has never been equalled and probably never will.

In the 12 months of that year 1,685,234 panted their way up the endless stairs to the top.

Wonderful Doors Revealed

Cleaning Has Restored One Of Glories Of Westminster Abbey

The simple process of cleaning has revealed one of the glories of Westminster Abbey, hidden for years. The beautiful tomb of Henry VII., and Elizabeth of York, his queen, with the carved bronze grille in which it is enclosed, and the bronze doors leading to the chapel, have been revealed by this cleaning.

The six doors were completed first. Up to the time that their glistening hue was again revealed to the public they were dull and black. In the dim light of the abbey, the great doors now gleam like pale, burnished gold.

With the wonderful detail of workmanship clearly visible. The tomb itself is said to be one of the finest in the world. Architecturally, it has been widely hailed as a work of unusual excellence. The doors, tomb and the grille are the work of the great Italian artist, Pietro Torregiano, who constructed this outstanding piece of work more than four hundred years ago. It is said to have taken the artist fourteen years to complete it.

Invents New Torpedo

Don Manuel Garcia Diaz, Spanish naval officer, is said to have invented a torpedo which can be fired without detection by a submarine. Where the old type torpedoes left a noticeable wake after its release, the new one leaves nothing to show its path. Submarines could strike with these without warning and without detection.

Had Good Reason

Sir James M. Barrie, the noted author, has revealed why he is so fond of Glasgow. Speaking of his younger days, he said there was once a horse show in the Scottish city. "I patronized it and lost a penny. I went back at night, climbed the paling and searched for it. I found three pence. No wonder I have a friendly feeling for Glasgow."

Small aeroplanes recently exhibited at the Egyptian Aero Show, and costing \$1,700 each, are capable of 85 miles an hour over long distances. They carry only one man.

Mechanical cotton pickers are put on the market, it is reported.

Thanksgiving Day

Advance Opinion That Day Of Thanksgiving Should Be Fixed For October

That is a good suggestion that comes from the Canadian Chamber of Commerce, that Thanksgiving Day should be fixed for some time in October. Before Armistice Day came along with such a whirlwind of thanksgiving that people thought it should be continued for all time. Thanksgiving Day was held in October. Then, with the harvest safely housed, people gave thanks in weather that made everybody thankful that he was alive.

Now thankfulness for the end of the war has melted into memories of the heroic dead—memories that do not fit in with the joyousness that characterizes the regulation Canadian Thanksgiving of feasting and sport. Armistice is a day apart. It lends itself to solemnity, mingled with sorrow. Let it have early November all to itself. Put Thanksgiving Day back where it belongs. — Toronto Telegram.

Might Try It Here

The Soviet government has found a way to make night-loving Russians go to bed. It turns off most of the street lights and doubles the prices for food and drink after 10 p.m.

Red brick coves its color to iron oxide in the clay; buff brick is the result of iron sulphide.

He Asked Them Does It Pay To Clip Cows?

A CERTAIN farmer wanted to know the facts about clipping cows so he wrote to the editor of one of those clipping machines. He wrote them. Now he himself is so happy with the Stewart clipping machine he sent us the letters which made him decide the clipping machine is a good investment. Here are some of them:

"It is short of help clipping reduces time necessary to keep cows clean—and must say since using the machine have not had any trouble with lice."

Jordan. "Before we clipped our cows we had a high bacteria count, where as after we clipped them we had a very low bacteria count thus improving the quality of our milk."

Whitby. "And it certainly is a wonderful help in reducing lice."

Gadhill. "We find it much easier to keep them clean and free from vermin when clipped. To have clean milk you must have clean cows. We raise quite a number of hifers every year and in that way we always have a number of cows to sell. The clipping so improves the appearance of the cows that I think it easily adds 5 or 10 dollars to the value of an animal."

HOW TO CLIP COWS

Mature, the principal source of bacteria, cannot collect and at milking time rub off into the pail if hair on udders, underline, flanks and tail is kept clipped short all winter.

Let some one conjugate along the spine, which explains why some farmers clip a six-inch width from tail to ears.

Farmers who have warm stables and drinking water inside, usually clip their cows all over in the fall.

Buy a clipping machine and make more money from your cows—with less work.

Stewart No. 1 Clipping Machine is easy to use, strong, sturdy, economical and will last for years.

At your dealer, \$12.00.

Satisfaction or money refunded.

Restless Children

Children will fret, often for no apparent reason. But there's always one sure way to comfort a restless, fretful child. Castoria! Harmless as the recipe on the wrapper, mild and bland as it tastes. But its gentle action soothes a youngster more surely than some powerful medicine that is meant for the stronger systems of adults.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is any need. In cases of colic, diarrhoea, or similar disturbance, it is invaluable. But it has everyday uses all mothers should understand. A coated tongue calls for a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed to set everything to rights. Genuine Castoria has Chas. H. Fletcher's signature on the wrapper. Doctors prescribe it.

Good

Blue Ribbon

RED RIBBON TEA

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

The Singing Fool

By HUBERT DAIL
Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer and makes her fiancée, too. Molly and Al have a baby, Junior, whom Al adores. When Junior is about two years old Molly becomes romantically interested in John Perry, Al's best friend. On New Year's Eve Al rushes home from the Club Bombo, where he is part owner and manager of ceremonies, to find that Molly has eloped with Perry, taking Junior. Al is staggered by the cruel blow. Next morning he visits Marcus, producer of the revue in which Molly appeared, in search of information.

CHAPTER XVIII

Marcus handed Al a tiny marked paragraph from the theatrical column of a morning paper. It read: "Miss Molly Winton, headliner in The Merry-Go-Rounders, the most popular Marcus review of the season, has left the cast temporarily for a much-needed rest. Her place will be taken by her understudy, Suzanne Eastman."

"Temporarily?" exclaimed Al. "Well, we just phrased it that way in case she should happen to come back. What's the meaning of all this, Al?"

Al stared hard at Marcus. Should he tell Marcus the truth, or should he cover up? It was apparent that Marcus knew nothing of Molly's whereabouts—and that was what Al had come to find out.

"Nothing," answered the young song-writer. "It's just as she says—she's tired out."

Marcus leaned back in his chair, studying Al's face carefully. "Boy, you're holding back on this. I can tell from your expression that she's done something to you too. Has she—has she ditched you?"

"I didn't say that."

"I know you didn't," but—your eyes say it. You look as if you hadn't slept for six months."

Al felt himself sagging, but he suddenly stiffened and exclaimed vehemently:

"Listen, Marcus, don't give me away on this. It would make scandal and I don't want publicity. I

Al's proposal. Cline knew in his heart that Al was right about himself—a man can't write songs or carry on in the night club racket unless he can amuse the crowd. And Al's face showed he just couldn't. Cline rose.

"All right, Al. I'll get the books and we'll have an accounting."

As Cline walked away Al picked up a newspaper that an office boy had just left on a nearby chair. He turned it over and—staring at him from the front page—was a large photograph of Molly. The words he read beneath that smiling photo horrified him.

Molly's hard eyes in the newspaper reproduction seemed fixed on Al in cynical and cruel triumph. In a two-column box he read:

"Interviewed at her suite at the Billmore today, prior to sailing on the 'Le de France,' Molly Winton, celebrated songstress and late star of 'The Merry-Go-Rounders,' confirmed the rumor that she is contemplating a Paris divorce from her husband, Al Stone, song-writer and Broadway's favorite master of ceremonies."

That one sentence was enough. Al dropped the paper and jumped up just as Billy Cline returned with the Club Bombo account books.

"What's the matter, Al?" cried his partner, for Al's face was ashen.

"Read this," Al snatched up the paper. "Molly's sailing today for Europe, taking Junior. It means I may never see my boy again! For all I know, they're on the high seas now!"

Cline scanned the article rapidly. Al interrupted him.

"Have they sailed yet?" he cried in tones of anguish. "Have they taken Junior away—without a word?" Cline turned quickly to the shipping news, while Al stood glancing over his shoulder. Down the column their eyes travelled to the part marked "Sailings—Today." And then—"Le de France—6 P.M." Cline looked at his watch.

"It's three now, Al. You might be able to stop them."

"You mean legally—the police?"

"There's just a chance."

"I won't do that. I have my reasons. But I must see Junior before he leaves—you don't know what he means to me, Billy!"

Al grabbed up the phone from Cline's desk and put in a call for the Billmore.

"I'd like to speak to Mrs. Al Stone."

Molly was superintending the packing of her bags when the phone rang. Junior was playing in the adjoining room of the suite, and John Perry, who had just arrived, was reclining in an easy chair near Molly, smoking a cigarette, his hat and stick beside him. The maid put down an armful of Molly's clothes and moved toward the phone.

(To Be Continued.)

Minaid's Liniment for Warts.

"John, you have been drinking my brandy."

"I have not, sir."

"Are you quite sure?"

"Quite sure. I could not get the cork out."

A Goliath Among Animals

Monster Uncarried In Africa Twice Length Of Biggest Whale

Lying under the ground in Tanganyika Territory, Africa, are the remains of a very Goliath among animals, a reptile as long as a street. Part of it has already been uncovered, and the dimensions of the fossil bones suggest that it must be at least twice as big as the Diplodocus Carnegie, the giant found in Wyoming and now in the Carnegie Institute at Pittsburgh. A cast of this creature is in the Natural History Museum at South Kensington, England, and as that is 80 feet long, the newly discovered monster of Tanganyika must be at least 160 feet long, or nearly twice the length of the biggest known whale.

These creatures, though so big, and called dinosaurs, were not ferocious carnivores (meat-eating animals). They lived on plants, and, although their bodies were bigger than the biggest elephants, their heads and brains were no bigger than those of a horse. The newly found animal's tail must have been 100 feet long, and its body must have stood between 20 and 30 feet from the ground.

These remains are of what must surely be the largest animal that ever lived.

NO MEDICINE LIKE BABY'S OWN TABLETS

Once a Mother Has Used Them She Will Use Nothing Else

To once use Baby's Own Tablets is to use them continually—that is as long as there are young children in the home. This is the testimony given us by mothers from all parts of Canada. They all say that they know of nothing to equal the Tablets, that they find them safe and efficient and at the same time pleasant to take.

Mrs. John Hollinworth, Maidstone, Ont., writes:—"I have three children, the eldest fourteen and the youngest nine months old. I have always used Baby's Own Tablets for them and know of nothing to equal the Tablets, equal the Tablets as a relief for the many ailments of childhood."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach. They drive out constipation and indigestion, bring up food and relieve fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Many Uses For Butter

People Of Tibet Use It In Strange Ways

In Tibet where cows and Yaks abound, no fresh milk is used. It is all churned to make butter. They burn butter in their lamps, they color it and mold it into patterns on cakes that adorn their altars; they eat it and wear it. Soldiers' rations include sheep bladders of butter, travellers carry them on a journey, housewives keep them hanging in the kitchen for years if possible. For their prize rancid butter as westerners do ripe cheese. In the winter, both men and women smear themselves with butter until they shine and reek with it. They feed themselves with buttered tea—a soup made of boiled tea, strained through a sieve and then churned with butter and thickened with "tsamba," a ground barley.

His Best Excuse

A gentleman who depends on his wife to make his excuses picked up the telephone the other day and inadvertently received an invitation for a weekend with a family he wouldn't think of visiting. Caught thus, he had to struggle through the situation alone.

"I'm sorry," he said, "but I'm called to Cleveland for the air races and won't be back until next Tuesday."

"Then how about next weekend?" inquired the caller.

"I'm afraid that's out too," he said, and thinking fast, went on, "Ah—we've got to go to a funeral a week from Sunday."

In the course of a century, about five comets usually appear that are visible to the naked eye.

A reliable Antiseptic—Minaid's Liniment.

Says Monkeys Have Language

Naturalist Believes Baboons Actually Talk To One Another

Among many curious discoveries made by Cherry Kearton, the naturalist, during a recent expedition into Central Africa, is one of particular interest: He has found out that baboons have a language of their own and do actually talk to one another. "You can often see their lips move as if in question or answer," writes Kearton, "and sometimes they seem in this way to carry on quite long conversations."

On one occasion the naturalist was waiting patiently with his camera in a "hide-up" which he had carefully built of stone near a water hole when a large troop of baboons, headed by one old leader, came down to drink.

"Among them was a mother with her baby perched like a little jockey on her back," says Kearton. "She went up to where the old chief was sitting on a stone, exactly like a human being. The mother very gently placed her offspring almost at the old fellow's feet before she stooped to drink. While she was drinking, the old baboon—becoming, apparently, suddenly interested in his task as nursemaid—picked up the baby, examined it and held it on his knees until the mother had finished. "A few minutes later the mother, taking it from him, said something which I hope was a word of thanks, and then, with her child in her arms, sat down and entered into what could only have been a conversation."

Health cannot be looked for in the child that is subject to worms, because worms destroy health, by causing internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed and satisfactory growth is assured.

Clock Made Of Wood

Constructed By Convict Serving Long Sentence In Europe

Having every part, even to the smallest wheel, composed of wood, a clock has been constructed by a convict in Europe, who recently completed a 20 years' sentence. It is built into a cupboard, runs without human supervision, and contains 30 watches which show simultaneously the correct time in the 30 largest cities in the world. Another watch in it shows the movements of the sun, moon and stars. A barometer predicts the weather. A calendar marks the passing of the days, weeks and months overcoming, unaided, the irregularities of leap year.

Does His Bit

"You don't make very good music with that instrument," said the bystander to the man with the bass drum, as the band ceased to play. "No," admitted the poulder, "I don't. But I drown a heap of bad music."

Little Helps For This Week

"Give me thine heart."—Proverbs xxiii, 26.

What can I give Him,
Poor as I am?
If I were a shepherd,
I would bring a lamb;
If I were a wise man,
I would do my part;
Yet what can I give Him?
Give me heart.
—Christina G. Rossetti.

O Lord! take my heart, for I cannot give it; and when Thou hast it, oh, keep it! for I cannot keep it for Thee; and save me in spite of myself, for Jesus Christ's sake.
—Fenelon.

Relieves Asthma At Little Expense

Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

Rolling Up Mileage

It is calculated that the total mileage now run by cars on British roads is 12,900 million miles a year. The total running mileage of British railways is about 600 millions a year. The motor mileage is, therefore, about twenty times as great as the mileage of the railways.

Wonderful For Indigestion!

When your stomach feels bad; when Gas, Sourness, Nausea or after-eating pain make you feel miserable—a single dose of pure Bismuth Magnesia will bring relief. For indigestion, the prompt effectiveness of BISMUTH MAGNESIA is really wonderful. Even the most obstinate cases quickly respond. Pleasant and inexpensive to use. Ask your druggist.

WINTER FOOTWEAR

No need to fear Old Man Winter when fitted out with our Warm Winter Footwear. All goods are First Quality only. No need to send your money away and wait. You pay for them when you get them, and get them when you want them. We list just a few of the staple numbers from our large assortment.

1-Buckle Artics

Made from Warm Wool Cashmerette heavy Fleece lining with Corrugated Rubber sole and heel. Warm and Economical.

Men's Sizes 6 to 11, for \$1.65
Boys Sizes, 1 to 5, for \$1.50
Youths Sizes, 11 to 13, for \$1.35

2-Buckle Overshoes

The same Big Value as the one-buckle but better and warmer if the snow is deep. Full Excluder Bellows tongue.

Men's Sizes 6 to 11, for \$2.15
Boys Sizes, 1 to 5, for \$1.95

Men's 4-Buckle Overshoes

Warmly lined 4-Buckle Overshoes, heavy corrugated sole. Made particularly for warmth in deep snow.

Size 6 to 11, for \$2.85

Girls

High Buckle Overshoes

3-Buckle style for girls, made with a Double warm fleece lining and full bellows tongue, corrugated heel and sole. This number is made with an extra full toe to fit children's wide shoes.

Size 13 to 2, for Per Pair \$1.75
Size 4 to 10 1-2 for Per Pair \$1.50

Moccasin Style Rubbers

This popular Gum Rubber comes in handy hundreds of times. Rolled edge sole and rubber heel. A good quality rubber.

Men's Sizes, 6 to 11, for Per Pair \$2.00
Boys Sizes, 1 to 5, for Per Pair \$1.65
Youths Sizes, 11 to 13, for Per Pair \$1.45

Men's Moccasin Rubbers

Heavy Weight Moccasin Rubbers with heavy rolled edge and heel, and corrugated toe cap. For over Moccasin or Felt Sox.

Per Pair \$1.25

Men's Felt Sox

Outdoor workers like this Warm, Light rig, made in one-piece from heavy Felt. Have leather stay back and front. Warm under gum rubbers or moccasin rubbers.

Per Pair \$1.65

Men's Moccasins

Men's Heavy Buckskin Moccasins, wax sewn vamps and heels. Soft, pliable uppers.

High Cut 10 inch style \$1.70
Low Cut style \$1.50
